Mahidol University
Faculty of Nursing

Master of Nursing Science (International Program)

Faculty of Nursing
and Faculty of Graduate Studies,
Mahidol University

The background we proudly present to you

Ever since it was founded as the first nursing and midwifery school in Thailand under the patronage of Her Majesty Queen Sripacharintra, the Queen of King Rama V, in the year 1896, the Faculty of Nursing has come a long way. From a humble origin, we are now one of the most prominent nursing schools in Asia.

With a top place on QS Thailand University ranking and being among the top 70 institutes QS Asian University Ranking, We have earned trust from academic institutes and nursing schools worldwide. To this date, we have 20 active MoU and agreements with various prestigious universities around the globe.

Additionally, on 1996 Faculty of Nursing, Mahidol University has the honor of being appointed by the World Health Organization as the "WHO Collaborating Centre for Nursing and Midwifery Development" for Southeast Asia Region.

With the goal of creating a better world through the field of nursing science, we make sure to provide our learners with the program that will prepare them to become leaders in nursing and health care, with the focus on their critical thinking skills, ethics, leadership, and positive attitude.

One such program that we proudly present is our Master of Nursing Science (International) Program.

Who we aim to create

Like many other higher education study programs, we aim to mold our learners into ideal researchers who have an in-depth discipline knowledge, who can integrate concepts, theories, research findings, and related scientific knowledge into nursing practice, and who also excel at analyzing, critical thinking, and problem solving.

At the same time, we also aim to prepare our learners to become a leader in the field of nursing and health care. We expect our students to be able to demonstrate self-awareness and emotional intelligence, as well as the ability to work in team, and the ability to communicate efficiently.

Most importantly, we prepare our students to be able to perform nursing practice based on evidence, responsibility, moral, and intercultural and ethical competency.

Curriculum

Each student has to fulfill a minimum of 38 academic credits. In addition to the core courses, we also aim to develop for our learners the 4 most important skills: Language, Leadership, Research, and information & technology, all of which can be developed through elective courses we offer and workshops we hold.

Admission Requirements

- 1) Holds a Bachelor's degree in nursing or certificate equivalent to Bachelor's degree in nursing and currently holds RN license in his/her country.
- 2) Have a minimum grade point average of 2.5 (on basis of 4.0 scale).
- 3) Have at least one year clinical experience in his/her own specialty.
- 4) Have minimum of two recommendations from professional references.
